**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am an orthodontist small business owner and I support broadband competition. I use voip technology for my phones and I need a fast internet connection for credit card processing, intraoral scanning to treatment planning with Invisalign.

I have fiber optic service with Sonic and it makes a world of a difference for my practice(business). I used to have internet service with Comcast and I would never want to go back. I now have a faster superior service at a lower cost.

As a tax payer, registered voter, and a small business owner, I urge you to support broadband competition. We need more options not less. This competition will encourage innovations and keep costs down for consumers. Without it, big business have less incentives to improve their services and the consumers will lose and will be at their mercy.
